- Teams should check in with their local health department to ensure best practices.
- Common questioning from coaches/facilities is the state's number of 10.
- Have to find a balance between the mandated state guidelines (such as cleaning every 2 hrs) and best practices for your facilities
- There is a muddy piece with OHSAA on the hold on school facilities until June 30th (end of school year in Ohio) but day camps and daycares can be on campus. Many are questioning this rule and possibilities of opening before then without ruining eligibility.

- Matt Davis's video went out today. Mike Davidson is up next.

Next Meeting: As needed or closer to openings. Potentially after Townhall.
